

ABOUT THE CSRO

For 40 years, the Canadian/American Spinal Research organization has been raising funds for spinal cord injury research, with the goal of restoring function to people living with SCI.

The only national, organization devoted to funding spinal cord injury research with a history of proven success in the field, the CSRO is devoted to a cure for paralysis caused by spinal cord injury.

CARWASH FOR A CURE

SUPPORTING ROAD SAFETY & PREVENTION OF SPINAL CORD INJURIES

Did you know that almost half of Spinal Cord Injuries are caused by motor vehicle crashes? Road safety is a major priority to both the CCA and CSRO.

The CSRO and its mission of the prevention and cure of spinal cord injuries are grateful to the Canadian Carwash Association for their Carwash for a Cure initiative.

Together we are working to increase road safety awareness and prevent spinal cord injuries through motor vehicle crashes.
